1 INTRODUCTION

1.1 PURPOSE

This document is the Student's User Manual of the Online Examination System of Tilak Maharashtra Vidyapeeth (hereafter "TMV"). This document explains how to use the online examination website as a student.

1.2 INTENDED AUDIENCE

This document is intended for students who are enrolled for the Distance Learning programs of TMV, initially starting with BCA, BBA and MBA programs.

2 OVERVIEW

2.1 CONTEXT

TMV offers over 100 different programs, both in in-campus as well as Distance Learning modes. These courses are offered through the Vidyapeeth campus and authorized study centers. The Vidyapeeth envisages expanding the reach of its programs as well upgrade the evaluation methods using the latest Internet technology. For this purpose, the new online system has been developed to handle the following functionalities as follows:

a. Online Admission
b. Online Examination
c. Online Results Publishing

This new system is initially launched for BCA, **BBA** & MBA courses in the Distance learning mode starting from the Academic year 2009.

This new system has been developed as a

a. Independent Web site including separate domain registration and is hosted on a very reliable internet server in a data center of a very reputed hosting provider in the US
b. The website has been developed as a common Internet-based portal for students, admission office, examination office, Examination Center Authority, Examination supervisors, Examiners/Moderators etc.

2.2 OVERVIEW OF PROCESSES

This section gives an overview of various processes related to students who are enrolled in the online system.

2.2.1 Admissions Process

- Students will apply for the admissions on the application form provided online and be given a temporary registration number
- Students would then take a printout and hand over it along with the Demand Draft for fees and other documents to the admission office at the Vidyapeeth or the examination centers
- The study center would send the collected application forms of all the students to the TMV admissions office.
- The central admission office would verify the applications and approve/reject the admissions.
- The admission list would be published on the website
- Students would be sent an email confirmation regarding the status of admissions.
- Admission cancellation: Students will have to apply on paper (offline) to the Admissions department. The Admissions department would complete the procedure & refund of fees as per rules and only mark the Cancellation Status in the online system.

2.2.2 Distribution of Study Material (Download)

- A designated course content editor (course In-charge) will upload the course material in the form of files including text, documents, audio/video files etc.
- The uploaded filed will be stored under each subject separately, in chronological order and be available till the end of the semester only
- The students who are admitted will be able to download the lecture files of their courses anytime as long as they are available on the website.

2.2.3 Examination Management

- The examination office would announce a schedule of examination at various centers, along with the examiners & external supervisors for each examination center

- The examination center would arrange multiple time-slots within the prescribed schedule for the students to come & take the online exams.
- The students can appear for the online examination on the new TMV website for this purpose, but only at the authorized centers. The student are not allowed to appear from any other location
- The students can start the examinations only after the Center Manager has started the session for that center in the system, followed by the external supervisor has authorized the session.
- The students would be free to appear for any course available to them in any order within the given period.
- Topics for each course in the exam would be identified along with the weightage for each topic for that exam.
- The question paper for the examination would be generated at the time of examination by randomly selecting questions from the question bank for the subject selected by the student and on topics identified for the particular exam. The number of questions on each topic would be generated according to the weightage assigned to the topic for the exam.
- The answers recorded by student would be saved in a tamper-proof image form with date/time stamp
- The examination would terminate automatically on expiry of time or on attempt to change/move browser window of the examination
- In case the student's examination gets terminated due to unforeseen problems such as lack of electricity, hardware or network failure etc., the student may be permitted to attend the next session. The student will be allowed only the time lost in the first attempt and the number of questions so as to make the total number of questions same as that of the prescribed exam paper.

2.2.4 Evaluation Process

- The evaluation of objective type questions would be done automatically as soon as the answers are saved by the student
- Evaluation of subjective questions & internal assessment would be entered manually by the examiners online in the same system
- Moderators would be re-revaluate the answers of students only for the subjective questions & internal assessment in case of Revaluation requests from students

2.2.5 Examination Results

- The results of online examination would be displayed to the students immediately after the examination
-

- The final results consist of consolidated marks of online examination & the internal (subjective) examination conducted by the TMV Center
- The final results of the semester or year would be sent an email intimating them of their result
- The students can take a print of their past examination mark sheets

3 HARDWARE & SOFTWARE ENVIRONMENT

The application is hosted from a data center of an internationally reputed ISP vendor for high capacity bandwidth and 24x7 availability.

The users (students) can access it using a browser from the desktop/laptop computers.

While the application for admission and other options can be accessed from anywhere, the online examination can be taken only from the examination hall of designated TMV Examination Centers.

The environment on student's desktop computers should be as follows:

Client Operating System: Windows XP/Windows Vista
Internet Connectivity: Broadband internet connection with appropriate bandwidth depending on number of simultaneous students, minimum 1MBPS
Proxy Setting: Necessarily use Proxy server to connect to the Internet.
Browser: Internet Explorer: ver. 6, 7, 8
Security settings for browser: Allow pop-ups from this site.

4 How to use the Web Site

a. This is the first page of the application.
b. You can login in the system if you are already a registered user by typing the user name & password & clicking on the Log In button.
c. If you are a new student, you can register by clicking on the New Student? Register link.
d. If you are TMV or Center staff, you can register by clicking on the Register as TMV/Center Staff link
e. If you have registered before, but have forgotten the login user name or password, you can reset your password & get an email sent to you by clicking on Forgot Login ID/Password.

Other than this, you can download program prospectus PDF files by clicking on the respective links. You can also see the TMV contact information by clicking on Contact Us link at the top.

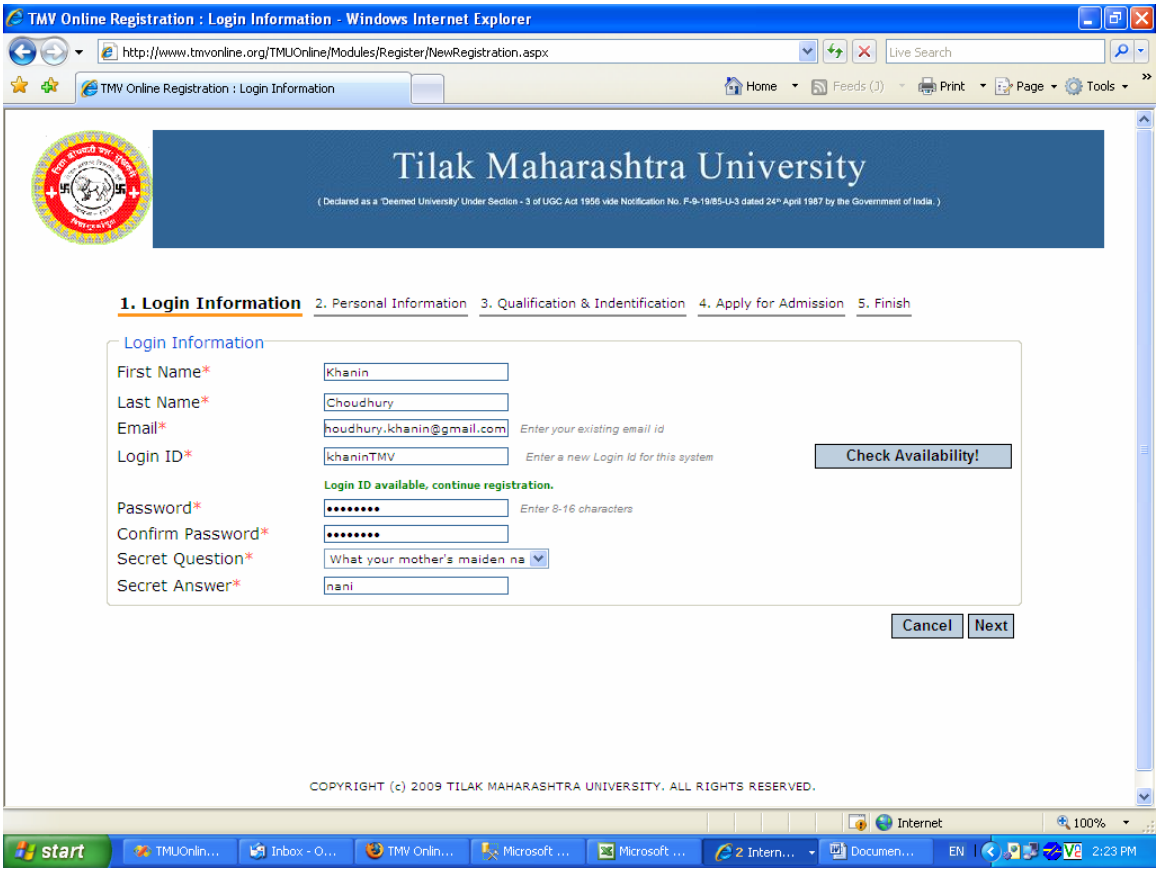
4.2 New Student Registration Process

The new student registration process consists of 5 steps as follows:

a. Login information
b. Personal information
c. Qualification & Identification information
d. Application for admission (selection of program)
e. Finish

There is a separate form for each step. These forms are described below.

4.2.1. Login Information



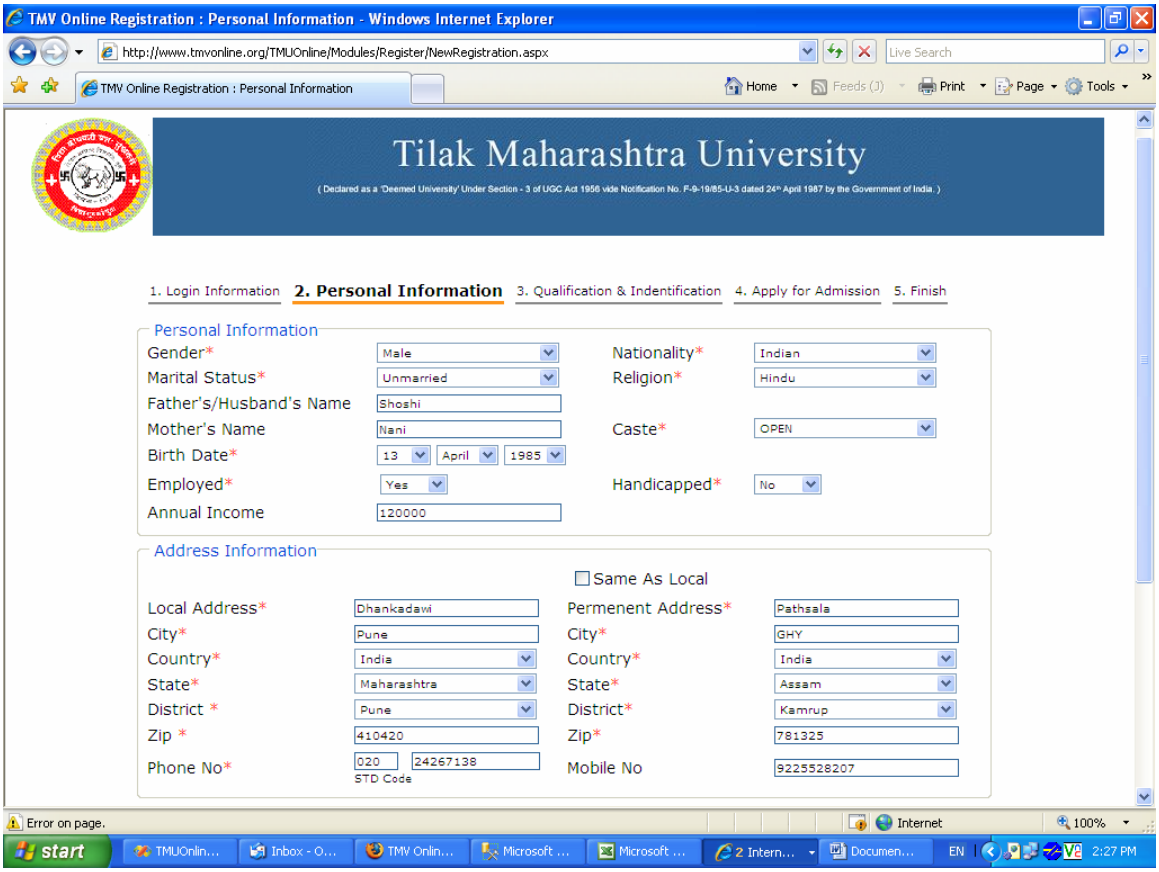
This form is used to get the student's login information.

a. First Name: The student's first name should be entered here. This field is mandatory.
b. Last Name: The student's last name should be entered here. This field is mandatory.

c. Email: An already existing email id of the student should be entered here. The student should have his own email Id from any of the email service providers or private institutions. This Online Examination website will not provide an email Id). Various emails from this site such as admission confirmation/rejection, exam results etc. will be sent on this email Id. This field is mandatory.
d. Login Id: The login id with which you wish to login into this site. It is possible that the login id may have been used by some other student already. For this purpose, after entering the login id, click on Check Availability button. If the login id input by you is already used, an error message will be displayed as **Login ID already registered, please try another ID.** If the login id is available, the message will be displayed as **Login ID available, continue registration.** This field is mandatory.
e. Password: Enter the secret password that you wish to use to login to this site. The password must be between 8 to 16 characters and you should follow the well known security guidelines for a good password such as – it should not be a dictionary word, it should not be names (of friends/relatives) or dates (birth dates etc) concerning you, it should be a combination of letters, symbols and numbers so that it is not easy to guess for hackers. This field is mandatory.
f. Confirm Password: Repeat the same password again. This is to ensure that you have typed the correct password. This field is mandatory.
g. Secret Question: This will be used when you forget your password and want to request to reset it. You can either choose from the questions displayed in the list or create your own question. This field is mandatory.
h. Secret answer: Input the secret answer to the above secret question which only you can know. When you request to reset your password, you will need to give the correct secret question & its correct answer. This ensures that only you can make for a **Forgot Password** request and no one else can tamper with your password. This field is mandatory.

Click on Next button after filling all the above information to proceed.
At any point if you wish to cancel this process, click on Cancel button.

4.2.2. Personal Information



This form captures the personal & contact information of the student.

Personal Information

a. Gender: Select from Male/Female. This field is mandatory.
b. Marital Status: Select from the list e.g. single, married, divorced etc. This field is mandatory.
c. Father/Husband's Name: Input father's name or (in case of married woman, husband's name). This field is optional.
d. Mother's Name: Input mother's name. This field is optional.
e. Birth Date: Select date, month and year of your birth date. This field is mandatory.
f. Employed: Select employment status whether employed or unemployed. This field is mandatory.
g. Annual Income: This field is available only if the above status is selected as Employed. If employed, input your annual income in Rupees here. This field is optional.

h. Nationality: Currently only Indian nationals are allowed to register, hence the default value is set to Indian and it is not possible to change.
i. Religion: Select from the list of religions. If your religion is not in the list, you can select Other – a text box will appear below the list box and you can type in your religion in it. This field is mandatory.
j. Caste: Select from one of caste categories in the list. This field is mandatory.
k. Handicapped: If handicapped, select Yes. This field is mandatory.

Address Information

a. Local Address: Input the local address here. This field is mandatory.
b. City: Input the name of the city/town/village where you currently live. This field is mandatory.
c. Country: Select the country of your local address. The default is India. This field is mandatory.
d. State: Select the state of your local address. The default is set to Maharashtra. This field is mandatory.
e. District: Select the state of your local address. The list shows the districts in the State selected above. This field is mandatory.
f. Zip: Enter the pin code of your address. It can be 5 or 6 digit code. Select the state of your local address. The default is set to Maharashtra. This field is mandatory.
g. Phone No.: Enter the landline phone number along with STD code. If you do not have a landline at your residence, you may give the phone no. of the TMV Center with which you are associated.
h. Same as Local: If your permanent address is same as the local address, then check this checkbox. Once you check, all the values of Local Address fields will get copied to the Permanent Address fields.
i. Permanent Address: If your permanent address is different from the local address, enter all the fields similar to the local fields as explained above.
j. Mobile No.: Input your mobile phone number. This field is optional.

Click on Next button after filling all the above information to proceed to Qualification & Identification details. At any point if you wish to go back to the Login Information page, click on Back button.

This form captures the educational qualifications & identification document of the student.

Qualification

This section is about your current qualifications. Only the Highest Educational qualification needs to be entered. The purpose of this is to establish the eligibility of the student. Depending upon which qualification is given here, the programs that will be offered to the student in the next screen (Apply for Admission) will vary. For example, giving STD XII as qualification, only Graduate level programs (such as BCA, BBA) will be offered. Giving a graduation qualification will result in Post-graduate programs such as MBA to be offered.

a. Qualification: Select your current qualification from the list. This field is mandatory.
b. Month & Year of Passing: Select month & year when the results of the qualifying examination in the above qualification were published. This should be the same date on your passing certificate. This field is mandatory.

c. Vidyapeeth/Board: Input the name of the Vidyapeeth or the board that conducted the examination. This field is mandatory.
d. Percentage: Input the percentage marks obtained by you in the qualifying examination. This should be the same as on your passing certificate. This field is mandatory.

Identification

This section is about the personal Identification proof that you will need to submit along with the application. You can submit any one of the following: Passport, Driving License, PAN card, Voter ID card, School Leaving Certificate etc.

e. Identification Type: Select which document you will be submitting as proof of identity. This field is mandatory.
f. Identification No.: Input the number on your ID – such as passport number or driving license no. etc. This field is mandatory.
g. ID Issuer: Input here the name of the authority that issued this ID (such as RTO or passport office etc). This field is mandatory.
h. Issue Date: Input the date on which this ID was issued to you. This field is mandatory.
i. Valid From: Input the date from which this ID is valid. This field is mandatory.
j. Valid To: Input the date until which this ID is valid. This field is mandatory.

If you do not possess any of the listed documents then you can select Others in the Identification Type list box and input the details of the document in Identification No. field

Click on Next button after filling all the above information to proceed to selection of course & applying for admission. At any point if you wish to go back to the Personal Information page, click on Back button.

After login, the home page with a standard menu is displayed from which various actions are possible.

The screen shows the logged-in user name and login time in the top right corner.

The Home link can be used to come back to home page at any time from any page in the site.

Clicking on the Contact Us link shows the contact information of the Vidyapeeth such as postal address, telephone numbers and email for support.

The menus are grouped under a main item and the actual actions take place on clicking on the sub-item in the menu.

Brief description of the various menus for student is given below:

4.3.1 Post Login Menu

Application: This group of menu items provides inquiry about the status of student's admission, print admission form, applying for admission in the next year after passing the examination, applying for repeat examination in failed subjects etc.

Course: These menus provide list of courses (subjects) undertaken by the student, their course material and option to download course material.

Exam: These menus provide schedule of upcoming examinations and start the online examination or mock test.

Result: The student can view results of his past exams.

User: The student can view/update his/her own profile and/or qualification/identification details. The student can also change his/her login password.

Sign out: Sign out from the website.

4.3.2 View My Application Status

Click on the menu View My Application Status to see the current status of your admission.

The following screen will be displayed.

The screen shows the program for which the application is made along with the year & semester.

Medium is shown as English and Mode as Distance.

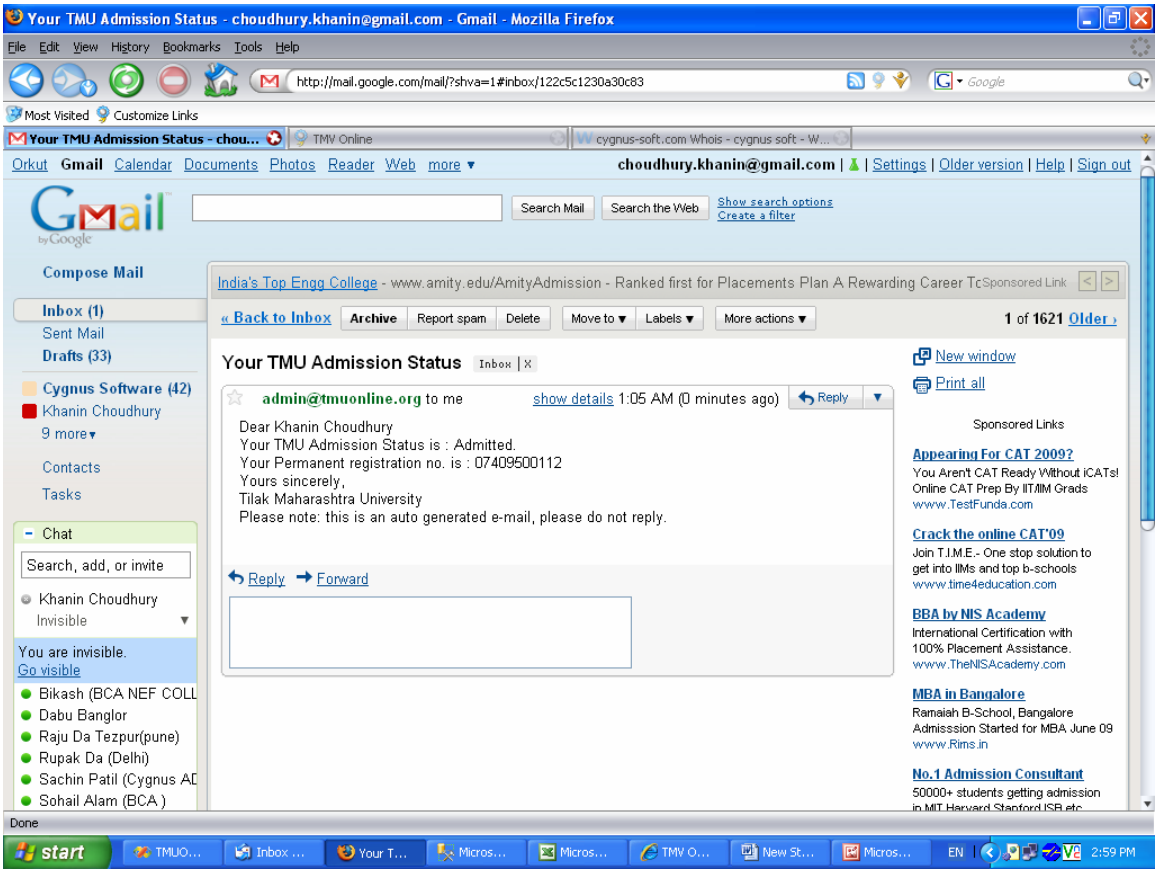
The Temporary Registration Number & Center are shown. Permanent registration number is allotted only after the admission is confirmed. Hence this is shown blank initially, but once confirmed, this will show the PRN number allotted to the student.

Application date & Admission date are the dates on which online application is submitted and the date of admission confirmed by the Admission department respectively.

Status of application is initially shown as "**Applied**". When the admission is confirmed by the Admission Department of TMV, it is shown as **Admitted** or Rejected/Hold/Canceled as the case may be. In case of Hold, the Comment shows the reason for which the admission department has held the admission.

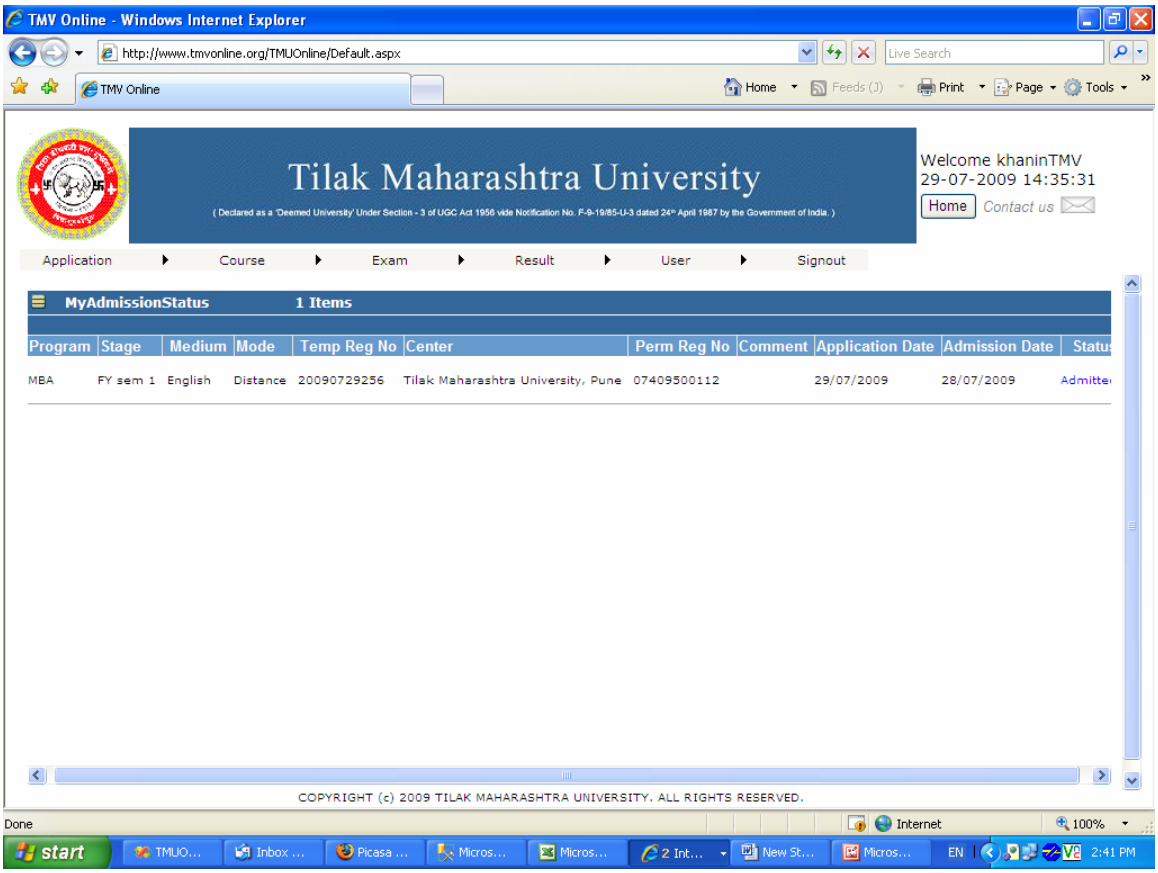
Once the Admission Department confirms the admission, a notification email is sent to the student's email id.

The format of this mail is as follows:



The email shows the status of admission as Admitted and the PRN number allotted to the student.

After receiving this mail, if you login & check the status of application again, it will be seen as follows:



4.3.3. View My Courses

Click on the menu item View My Courses under the Course menu.

The next page will show the list of courses (subjects) undertaken by the student in the current semester.

The list has a Show button for each course. The Course code & course title are shown. Also whether the student is a regular or repeater is shown.

Clicking on the Show button shows the list of files available as course material for the selected course.

The student can download the available course material by clicking on the respective file in the list.

4.3.4 Online Exam

By clicking on the Start Online Examination menu, the student can start the online examination.

If you see the security warning at top of this screen, please Click on Options & select "Allow Blocked Content" now or else this site will not work!
If pop-ups are blocked, you will not be able to start exam. Unblock pop-ups before clicking Start Exam.
Examination instructions
1. Do not try to minimize the window or change the focus to other window
2. Do not use function key Like F1, F5 etc
If you do not follow the above instructions, your examination will be terminated.
Click Here to start exam (new window will open)!
COPYRIGHT (c) 2009 TILAK MAHARASHTRA UNIVERSITY. ALL RIGHTS RESERVED.
start

A. Exam Rules

The page shows some tips and instructions for online examination. Please read these carefully.

It is important that the security settings are set to allowed pop-ups because the online exam is launched in a separate window as a pop-up.

Click on the link Click Here to start exam.

The exam will start in a new window.

IMPORTANT : Once the exam starts, you should not change focus to any other window by minimizing or resizing the exam window or any other means. If you do this, it will be treated as attempting to indulge in malpractices and the exam window will be closed and your exam will be terminated.

Also you should not click any function keys on the keyboard or right-click of mouse.

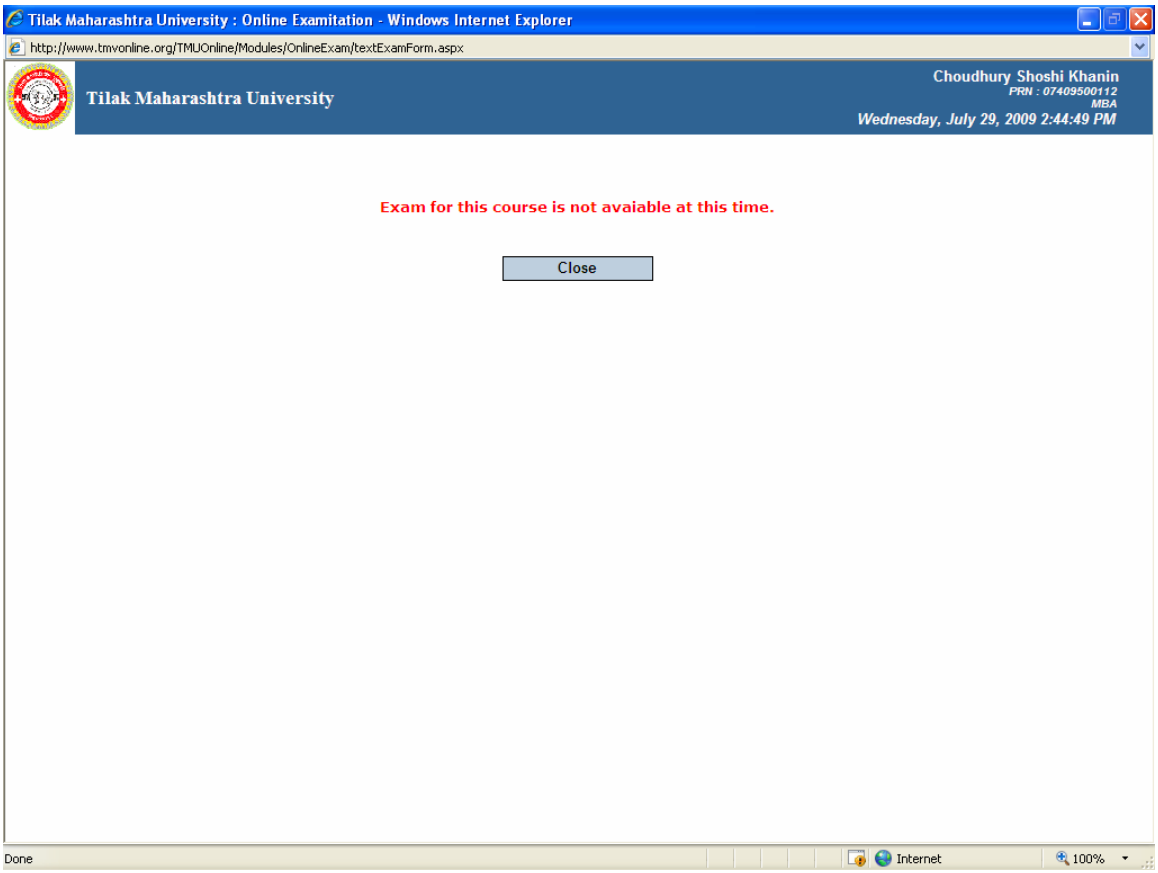
B. Exam Sessions

The student can start the exam only from the authorized examination center of TMV and only when an examination session has been started.

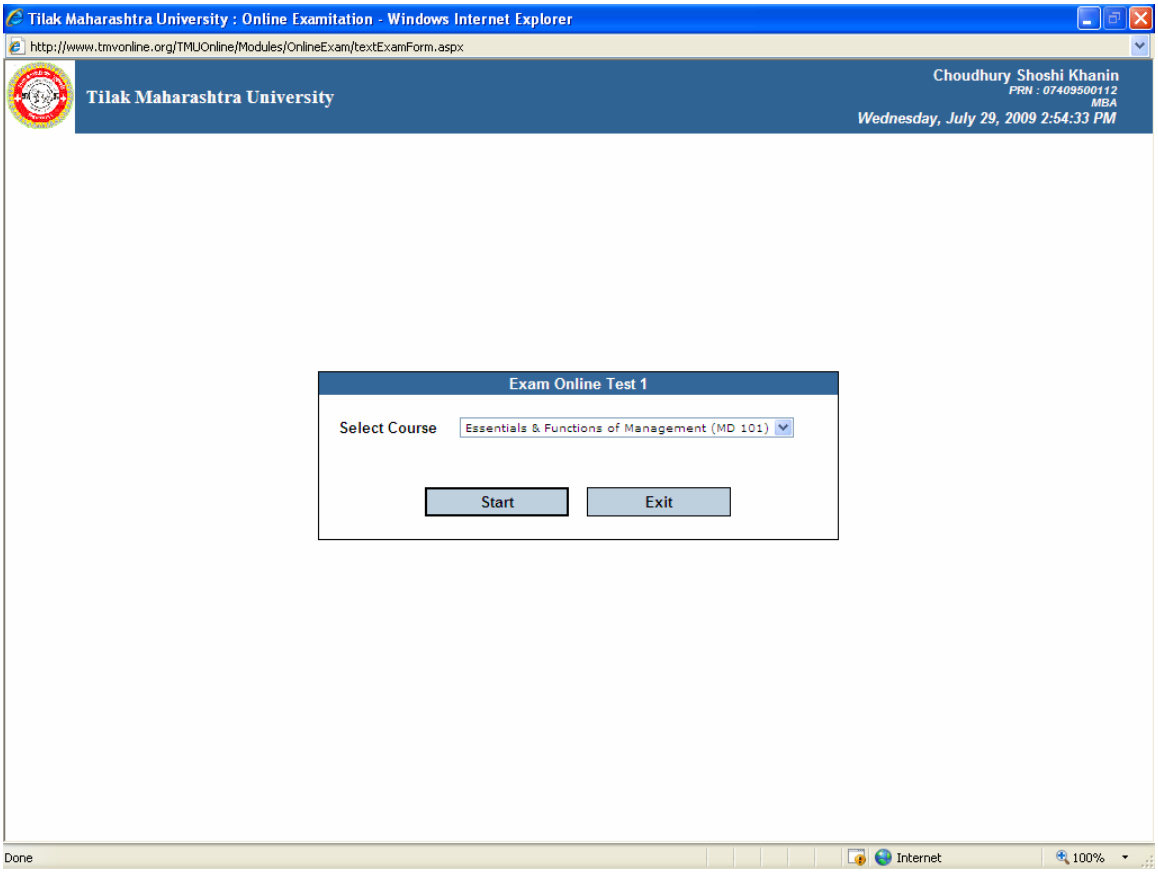
A designated Center Manager will first have to start an examination session and an external supervisor appointed by TMV will have to authorize the exam session.

This means that the students can not take online examination from any other place such as their homes or internet cafes etc. Also they can not take the examination at any time, except during the announced examination schedule days and timings as announced by TMV.

The student has to finish the exam for all the courses of the semester during the scheduled examination days in any order which he/she wishes. Once the examination of a course is finished, that course is no more available for examination again.
If the student attempts to take an exam from anywhere outside the exam hall or outside the timings of the announced schedule, the following error message will be shown.

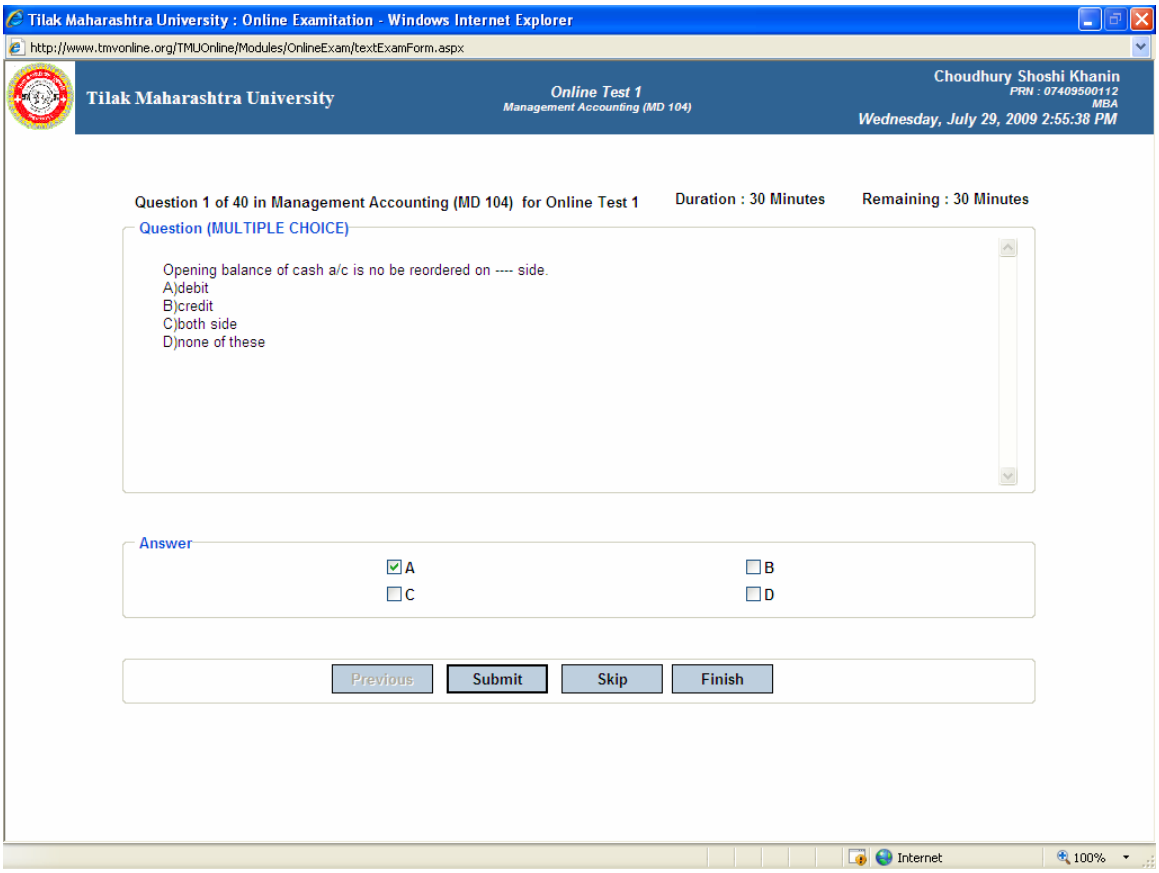


When the student starts the exam from an authorized exam center and after the exam supervisor has authorized the exam session, the list of available courses is displayed for selection as follows:



The student can select a course from the list and Start to start the online examination.

The examination page is as follows:



The page shows the students name, PRN number, program name and current date/time in the top right of the page.

In the main frame, the Question number, total questions, the course name of the selected course, duration in minutes and remaining time in minutes is shown.

The question type is indicated before the question. The question type can be

- Multiple Choice
- True/False
- Match Pairs
- Fill in Blanks
- Odd one out

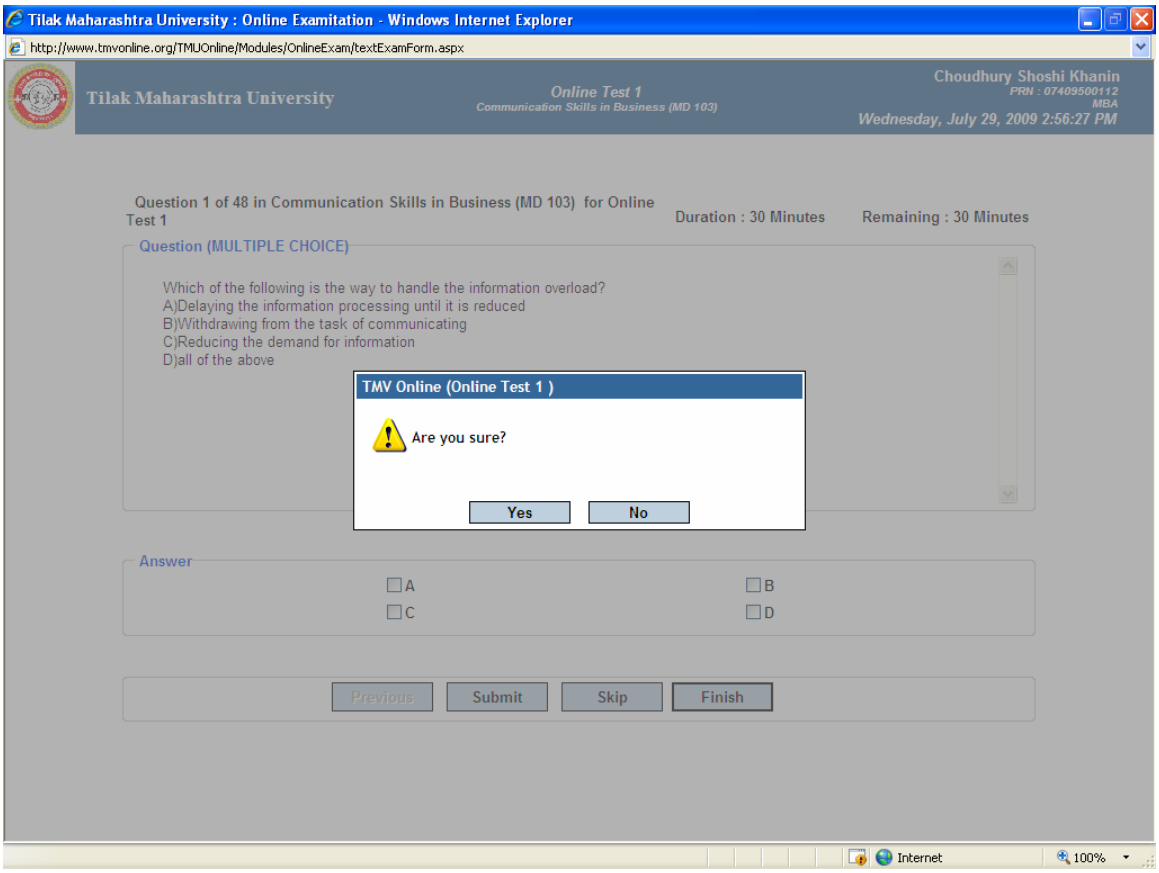
The possible answers are displayed below. The student has to click on one of the answers or type in the answer in case of fill in blanks.

Previous: Click on this button to go back to the previous question. If the previous question has been answered, then the answer already recorded is displayed and it can not be changed. Only if the previous question was skipped, then the answer can be typed in.

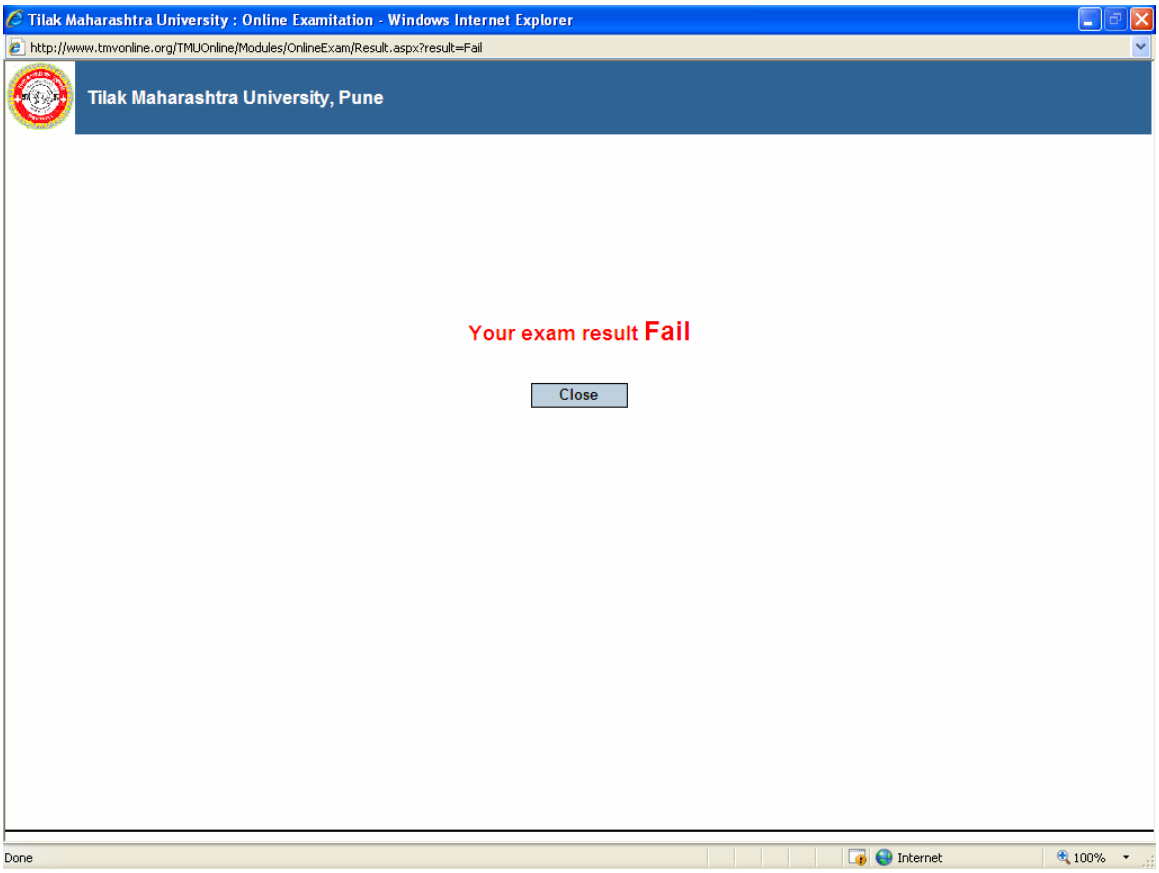
Submit: Click on Submit button after selecting the correct answer. Once clicked, the answer is recorded and automatically the next question is displayed. It is NOT possible to change the answer once submitted.

Skip: Click on the Skip button when you are not sure of the answer. When you come back to the question you skipped by clicking the Previous button, you can type in the answer later.

Finish: Click on Finish button to finish the examination.



You will be asked to confirm if you really want to finish the exam.
If the total duration is exceeded, then automatically the exam will be finished.
The result Pass/Fail for the one course which you just appeared is displayed after finishing the exam as follows:



Tilak Maharashtra University : Online Examitation - Windows Internet Explorer

4.3.5 User Menu

As a system user, each student is allowed to view his/her own profile and change his/her password.

These menus are available from the User menu.

4.3.6 Forgot Password

In case you have forgotten your password, you can request to reset your password. However for this you need to remember your secret question & answer you provided at the time of registration.

Click on the Forgot Password link on the Login page. The following page will be displayed:

You can input your login id.

If you have forgotten your login Id also, then you can input your email Id and then change the Radio button (default is Login Id) on the right to Email Id.

From the list of Questions list box, select the question that you had at the time of registration.

Input the same answer in the Answer textbox that you had input at the time of registration.

If your secret question & answer matched the ones at the time of registration, your password will be reset to a new randomly generated complex password and an email will be sent to your email Id.

The format of the email is as follows:
